

**You want to come but can't afford it!**

**Our suggestions to make it possible!**

**Everything starts with you.**

You would really like to stay at Vires Animaliae for a few days, or maybe longer.

You would like to receive coaching from the horses and Monique.

you would like to follow a training,

but you have no money to do it.

**How do you make that possible!**

Everything starts with yourself, meaning that if you would really like to receive something, it is usually possible.

Our idea of sharing is two-fold! We like to share our knowledge and give guidance, but also like to receive something in return for the animals. The animals have to eat and need a lot of care.

**For example:**

You would really like to come to receive 2 days of coaching from the horses and Monique. Normally it costs € 540 for 4 half-day sessions of 3 hours.

**That money does not exist, what now?**

**Example:**

For example, if you can find 5 donors who want to donate 10,- a month, for 1 year to Vires Animaliae, you have those 540 together. That can of course also be 9 sponsors of 5,- per month, or maybe 3 of 15,- per month for a year.

The effort you have to take is, to find the people who would like to help you make your dream come true!

Daring to ask is also to give to yourself, and you also donate to the animals of Vires Animaliae, and for that we give you the coaching, training or help you need.

They call this sharing, a form that is pure.

This always works, since you start with yourself and you give yourself something.

Many people around you allow you to do that too, more people than we may think!

So just do it! You could also do this for your stay here, flight, bus trip, then you ask a few friends, family, acquaintances for a donation towards the whole wish you have.

Take that step, you are worth it.

Feel free to send us an email explaining what you would like, we can then make a plan together and determine the costs involved.

Love from the animals of Vires Animaliae and Monique
